

How to Send Us Your Photo Portfolio via Google Drive

Please upload your photos to a Google Drive folder and send us the link. We will use these photos to create your personal page on our website.

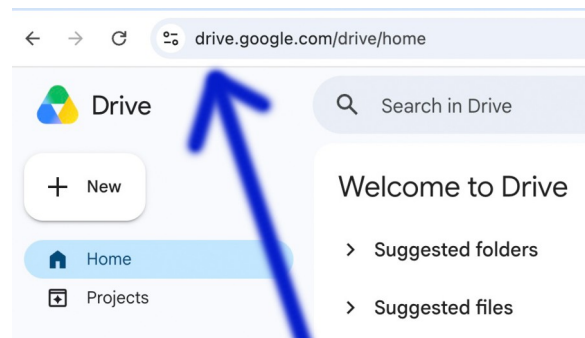

Add 1 photo for your avatar (showing your face) and up to 50 of your best works. Create subfolders to separate photos by category (e.g., Business, Lifestyle, Tour photographer).

Follow these simple steps:

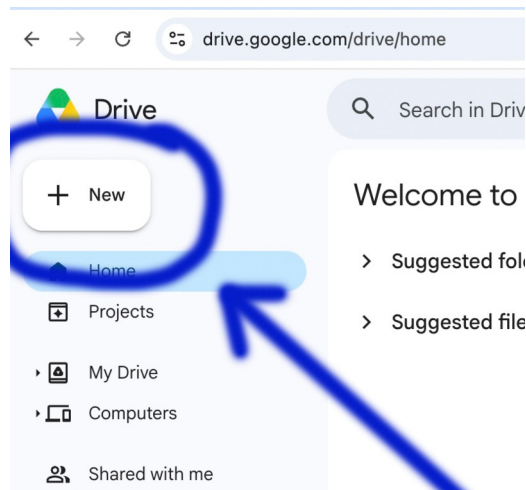

Step 1: Create the Main Folder

To access Google Drive, you must first log in with your Google account in your browser.

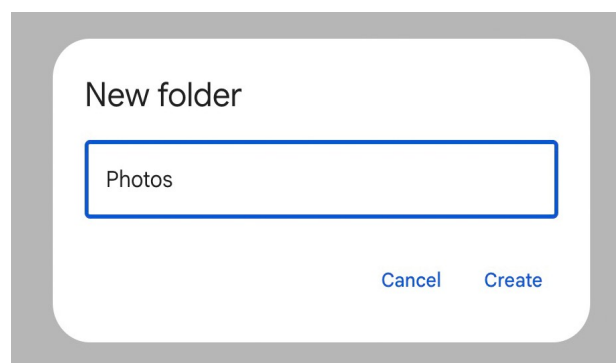

Enter the following link in the address bar and click it to open:
<https://drive.google.com/drive/my-drive>

Click the "+ New" button.

Name it "Photos" (or "Portfolio") and click "Create".

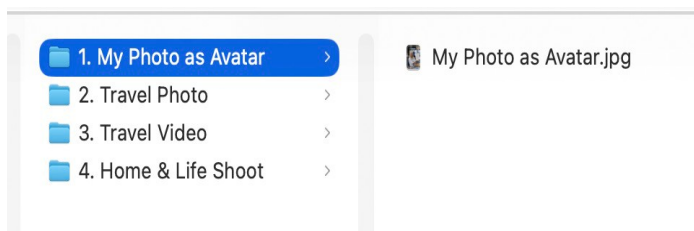

Step 2: Create Subfolders for Categories

Create a main folder on your computer that you want to share, and then create subfolders inside it (Example: "Avatar", "Business Portrait", "Lifestyle", etc.).

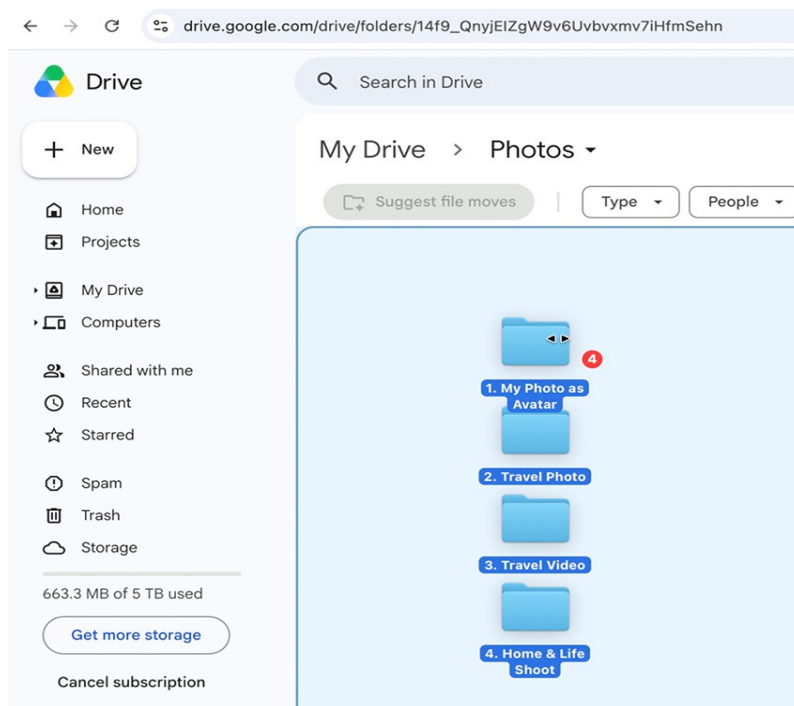

These folders will serve as different sections on your page.

- Put a clear photo of your face in the "Avatar" folder.
- Put up to 50 of your best works into the category folders.

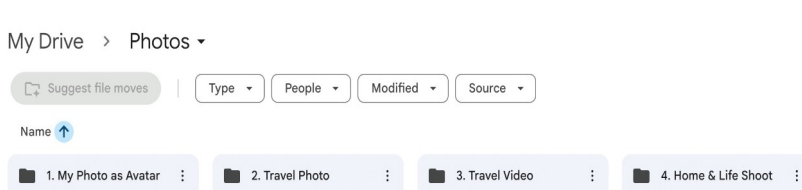

Step 3: Upload Your Photos

Drag and drop your photos from your computer into the main folder named Photos or Portfolio.

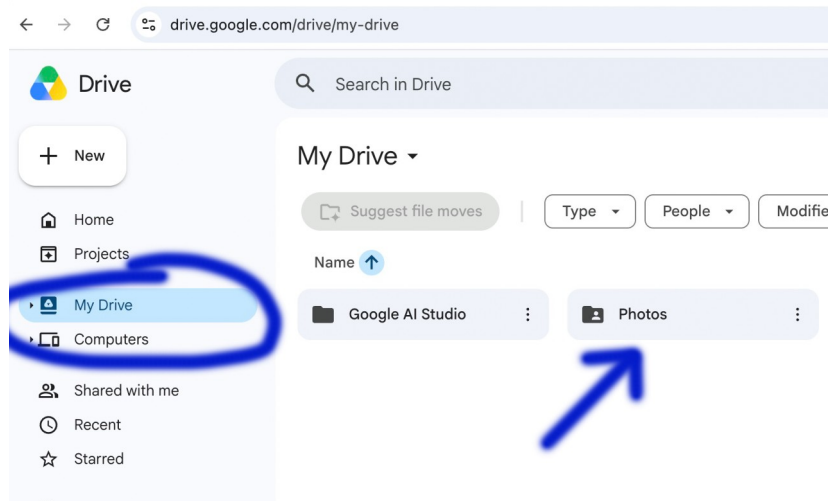

In this way, you will see your main folder Photos or Portfolio in Google Drive, and inside it the subfolders with categories.

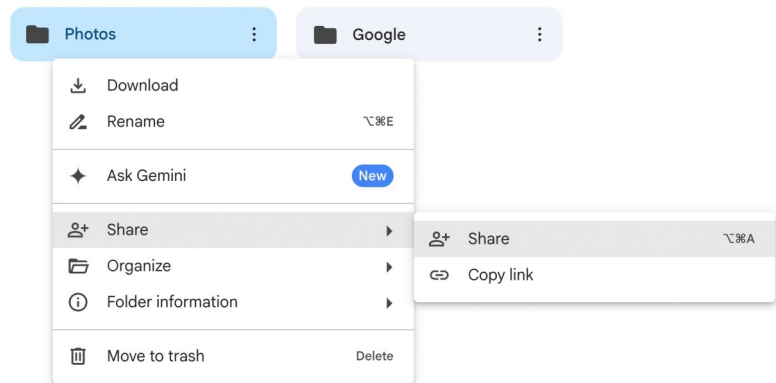

Step 4: Share the Folder

Go back to "My Drive" and you will see your main folder with your photos there.

Right-click on your main folder. Click "Share", and then click "Share" again.

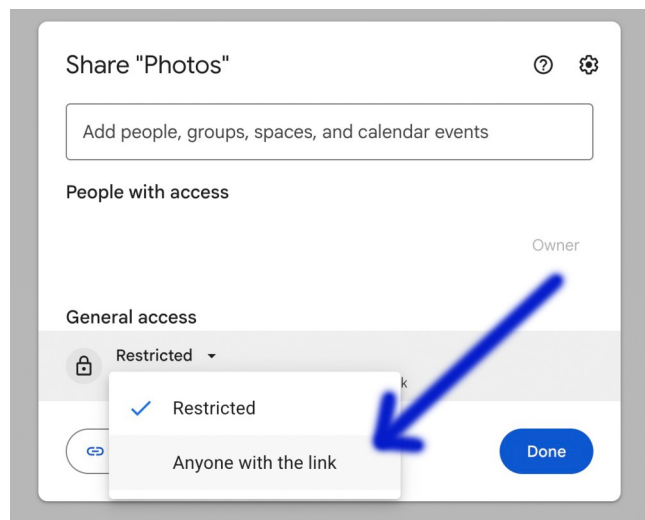

Step 5: Change Access to "Anyone with the link"

Look at the bottom under "General access".

Click on  "Restricted".

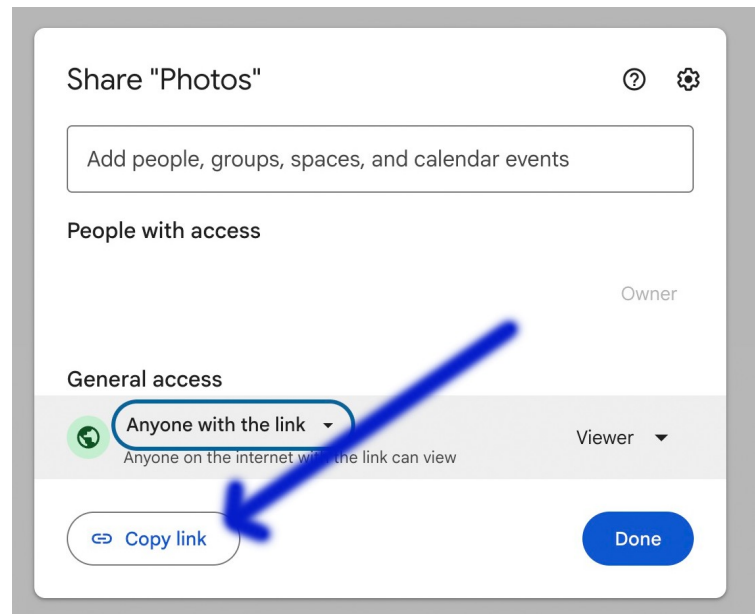

Change it to "Anyone with the link".

Step 6: Copy the Link

Click the "Copy link"  button.
Click "Done".

Paste this link and send it to us!

IMPORTANT: Security & Privacy Warning

Please understand how this link works:

- These photos are "not encrypted" (not protected by a password).
- "Anyone with the link" means exactly that: *any person* on the internet who gets this exact link can see your photos.
- Do not share this link publicly if you want to keep these photos private. Only send it to us.
- Alternatively, you can archive your main folder with photos (including a password) on your computer, then move this archive to your Google Drive. Send us the ZIP password in a message together with the Google Drive link. This way, your photos will be protected.
